-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Election/Restriction**

1. Claims 1-70 are presented for examination.
2. Restriction to one of the following inventions is required under 35 U.S.C. § 121:
  - I. Claims 1-34, 44-47, and 52-70 are drawn to a system, method, and computer program of a proxy domain name registration, classified in class 709 subclasses 201-202 and 245-246.
  - II. Claims 35-43 and 48-51 are drawn to a system, method, and computer program of a proxy email address management, classified in class 709 subclasses 205-207.

**Combination-Subcombination**

3. Inventions (I) and (II) are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)).

In the instant case, the combination as claimed (Invention (I) a system, method, and computer program of a proxy domain name registration including: a registrar installation performing receiving request, communicating to a proxy, and storing information; and a proxy installation performing receiving information, communicating to a registrar, and storing information) does not require the particulars of the subcombination (Invention (II)) as claimed because the Invention (I) do not rely upon the specific details (database having customer information and email address; and email server having program to detect, retrieve, redirect, and forward) of the subcombination for their patentability.

The subcombination has separate utility such as a system, method, and computer program of a proxy email address management including: database having customer information and email address; and email server having program to detect, retrieve, redirect, and forward

#### **Conclusion To All Restriction Requirements**

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

6. Because these inventions are distinct for the reasons given above and the search required for group (I) is not required for group (II), restriction for examination purposes as indicated is proper.

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventor ship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventor ship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(1).

8. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).

9. Applicant is required under 35 U.S.C. 121 to elect a single group disclosed as described above for prosecution on the merits because each of the groups requires different search in different class and subclasses.
